

1	BARRIER OPENING WITH FLEXIBLE SEAL FOR OPERATOR	9.16	...Activated by manually pushing the ejecting mechanism
3	CANOPY OR CURTAIN TYPE	9.17Including individual support
4	..Wall	9.18Tilting support causes recording medium to roll out
5	..Knockdown or foldable	9.19Ejector returned by a spring
6	..Knockdown or foldable	9.21Movable blocking member
7.1	RADIO TYPE	9.22Spring biased recording medium
7.2	TELEVISION TYPE	9.23Lifting ejector
8.1	FOR PHONOGRAPH RECORD PLAYER	9.24Fulcrum ejector
8.2	..Having pivoted or rotating player support	9.25Including interactive linkage
8.3	..About a vertical axis	9.26Horizontally oriented recording medium
8.4	..Portable	9.27	...Activated by manually pulling out the ejecting mechanism
8.5	..Having sliding player support	9.28To eject recording medium together with holder
8.6	..Having separate phonograph record compartment	9.29	..Removed by a master ejector
8.7	..Including interconnected or interrelated player and record compartment doors	9.31	...Stored in a carousel
8.8	..Including movable record support	9.32	...Supported on a shelf
8.9	..Record compartment situated above or beside player compartment	9.33Including a manual rotary selector
8.11	..Record compartment situated under player compartment	9.34Including a manual sliding selector
8.12	..Player accessible through front of cabinet	9.35And a manual pull-out operator
8.13	..Player accessible through top of cabinet	9.36And a manual push fulcrum operator
8.14	..Removable closure	9.37Including interactive linkage
8.15	..Pivoted closure	9.38	...Multiple recording media ejector
8.16	..Having a movable speaker compartment closure	9.41	..Recording medium shifted with the closure
9.1	FOR STORING AUDIO OR VISUAL RECORDING MEDIUM (E.G., COMPACT DISC, PHONOGRAPH RECORD, FILM, TAPE)	9.42	...Support integral with the closure
9.2	..Cylinder	9.43	...Plural recording media shifted with the closure
9.3	..On a sliding shelf	9.44Support integral with the closure
9.4	..Pivoting or rotating support	9.45	..On rotary support
9.5	..Including a drive belt	9.46	...About a vertical axis
9.6	...Rotating closure type	9.47	..Manually slidable recording medium or medium support
9.7	...Rotatable about a vertical axis	9.48	...Horizontally oriented recording medium
9.8	..Portable	9.51On terraced shelves
9.9	..Disk or parallelepiped shape	9.52Plural recording media on shelf
9.11	..Removed by individual ejector	9.53	...Vertically oriented recording medium
9.12	...And a master selector		
9.13Removable key-type selector		
9.14Sliding selector		
9.15Pivoting or rotating selector		

9.54And removed vertically	34.12Electrical drive means for supply or take-up roll
9.55Holder for multiple recording media	34.13Stop-timer mechanism
9.56Stored in individual holder	34.14Dash pot
9.57	...Spring biased	34.15Suction cup
9.58	..Manually pivotable recording medium or medium support	34.16Stop-manual-release mechanism
9.59	...Suspended medium support	34.17Spring driven take-up roll
9.61	...Removable support	34.18	..Drawer magazine type
9.63	..Spring retainer	34.19	..Including external manual operating means
9.64	..Portable	34.21	...And plural outlets
10.1	FOR PROJECTOR	34.22	..Including a reserved supply roll
21	DISAPPEARING-INSTRUMENT TYPE	34.23	..Having plural outlets
22	.Combined closure and support	34.24	..For mounting in a wall-recess
23	..Interconnected closure and support	35	REMOVAL FACILITATING MAGAZINE TYPE
24	...On swingable link or linkage	36	.Article cooling
25	...With trackway	42	.Stacked article type
26	...Pivoted support	43	..Cup shaped article
27	.On swingable link or linkage	45	..Cylindrical article
28	..With trackway	49	..Ball
29	..With trackway	50	..Card or sheet
30	.Pivoted support	59	...Rotatable
31	WITH GAS OR VAPOR TREATMENT OF MATERIAL	60	...Chute or column
31.01	.By wetted surface exposed to material chamber and continuously contacted by unconfined gas	61With follower
31.02	..Knockdown	71	..With follower
31.03	..Moistened chamber wall	72	.Cylindrical article
31.04	...Of porous mass only	73	..Slender article
31.05	...Of porous fabric sheet only	86	...With igniter
31.06Liquid down flow with bottom gutter	91	.Web conveyer
31.1	.Mounted on container closure	97	.Endless carrier
31.2	.Externally accessible	97.1	.Rotating magazine
31.3	..Movably mounted holder	100	OUTDOOR TYPE
33	WORSHIP	101	.Wall or window
34.1	FOR SHEET MATERIAL (E.G., TOWEL)	102	..Show-case
34.2	.Rotatable cabinet	107	SECTIONAL-UNIT TYPE
34.3	..Having plural outlets	107.5	.With gang-bar type lock or latch
34.4	.Stacked or folded	108	.Knockdown
34.5	..Including means for storing used portion of a continuous towel	109	.Door or closure constructions
34.6	...Including a take-up roll	110	..Equalizers
34.7	..Having plural outlets	111	.Connectors
34.8	.In roll form	114	SHOW-CASE TYPE
34.9	..Including means for storing used portion of a continuous towel	115	.With sprinklers
34.11	...Including a take-up roll	116	.Refrigerator
		117	.With compartments
		118	..Stock and sample
		119	...Sliding compartment
		120	...Pivotally mounted compartment
		121	...Chute
		122	..Sliding compartment
		123	..Pivotally mounted compartment
		124	..Chute

125	..Rotatable	206	FOR BRUSH, BROOM OR MOP
126	.With trays	207	.Projecting article handle
127	..Interconnected closure and tray	208.1	FOR KEY-BOARD WRITING MACHINE (E.G., TYPEWRITER)
128	.With racks	208.2	.Including work-sheet storing area
129	..Combined closure and rack	208.3	.Having particular machine-cover detail
130	...Interconnected closure and rack	208.4	.Portable
131	...On trackway	208.5	FOR SEWING MACHINE
132	..On trackway	208.6	.Portable
133	...Pivoted support	209	LABORATORY, DENTAL, BARBER OR MEDICAL
134	..Endless carrier	210	MASK OR SCREEN TYPE
135	..Rotatable	210.5	WITH SIFTER
136	..Pivoted	211	WITH DEPOSIT AND COLLECTION COMPARTMENT
137	.Counter protectors or guards	212	.Movably mounted
138.1	.With closure (e.g., door)	213	FORAMINOUS EXTERIOR WALL
139	..And operator	400	SPACED INSULATED WALL
139.1	..Movable sequentially, pivotally and rectilinearly	401	.Refrigerator cabinet
139.2	..Rectilinear movement	402	..Including exterior-access drawer
140	.Joints and connectors	403	..Including hot compartment
140.1	COUNTERS	404	..Including particular storage compartment
140.2	.Portable	405	..Closure structure
140.3	.Tops	405.1	...Having article support
140.4	..Attachments	406	..Wall structure
183	WITH CARD OR SHEET RETAINERS	406.1	...Including means to relieve thermal stress
184	.Suspended sheets	406.2	...Wall-ends connection
185	.Sheets gripped in housed position	407	...Refrigerating-zones divider
186	..Rotatable drum with card retainers actuated by rotation	407.1	...Having opening
187	..Retainers on housing	408	..Shelf or shelf-supporting structure
188	.Formed by closure operable when closed	409	.Fire-resistant cabinet
189	.Sheet impalers	410	.Particular oven shelf, rack, or support therefore
190	.Spring urged	215	WITH LOCK OR LATCH SELECTOR- OPERATOR
191	..Relatively, sequentially movable carriers	216	GANG-BAR TYPE LOCKING OR LATCHING MEANS
192	..Horizontally swinging support	217	.Concealed
193	.Fixed non-gripping retainers	218	..With push or pull rod as operator
193.4	.And a card selector	219	..With separable key as operator
194	SPACED PEDESTAL TYPE (E.G., KNEEHOLE DESKS)	220	..With closure as operator
195	.Knockdown, set-up, or sectional	221	..With movable compartment as operator
196	.With structure above table	222	LATCH ACTUATED BY COMPONENT OR ITS LATCH
197	.Rotary pedestal compartment	224	WITH MIRROR
198	ARRANGEMENTS OF PLURAL CABINETS	225	.Plural
199	.Adjacent mutual closures		
200	..Movable as a unit		
201	..Relatively movable		
202	..Axially rotary		
203	.With interposed table		
204	SIMULATION, ORNAMENTATION OR WITH SECRET COMPARTMENT		
205	EXPANSIBLE		

226	.Movably mounted	262	..Sidewalls hinged to rigid backwall
227	..With, on, or forming, closure	263	.Adjacent walls rigidly interlocked
228	WITH BASIN OR TUB	264	.Opposite walls rigidly interlocked
228.1	.Having particular shelf or rack	265	..Interior tie members, externally accessible
229	WITH LIQUID DRAIN, DUST COLLECTOR OR GUARD	265.1	.Skeletal frame
230	WITH ERASABLE SURFACE (E.G., BLACKBOARD)	265.2	..Parallel panels connected by skeletal frame members
231	WITH DRAFTING BOARD	265.3	...Parallel panels are vertically oriented
232	WITH INKWELL	265.4	..Free-standing in final configuration
233	WITH BOOK SUPPORT	265.5	.Connecting panels
234	WITH EXHIBITOR, INDICATOR OR SAMPLE	265.6	.Removable panel
234.1	.With contents indicia	266	WITH CONTINUOUSLY LEVEL REVOLVABLE COMPONENTS
234.2	..Correlated list	267	.Continuously housed
234.3	...On closure	268	..On flexible endless conveyor
234.4	..Labels affixed to shelves and/or partitions	269	.Interconnected with pivoted rigid housing wall
234.5	..Labeled movable supports	270.1	HAVING A MOVABLE COMPARTMENT WITH IN-HOUSED COVER
235.1	WITH STEP	270.2	.Pivotally movable compartment
235.2	WITH SEAT OR REST	270.3	.Horizontally movable compartment
235.3	.Seat storable within cabinet	271	CONSTRAINED, INTERCONNECTED COMPONENTS
235.4	.Component rearrangeable to form seat	272	.Vertically movable
235.5	.Cabinet with seat structure	272.5	..With rigid housing wall
235.6	..Cabinet forming armrest	273	.Horizontally movable
235.7	..Cabinet forming backrest	274	..With rigid housing wall
235.8	.Diverse cabinet adapted to be mounted upon seat	275	.Rigid housing wall
235.9	.Diverse seat and cabinet fixedly connected (e.g., classroom desk)	276	..Horizontal axis
236	WITH HEATING, COOLING OR HEAT EXCHANGE MEANS	277	WITH SEPARABLE TABLE
237	COMBINED	278	EXTERNALLY STEPPED OR SET-BACK
238	ROOM CORNER TYPE	279	.Single set-back upper portion
239	WITH USER ACCOMMODATING RECESS	280	CONTINUOUSLY EXTERNAL ARTICLE SUPPORTS
240	CONVERTIBLE	281	.Projecting table or shelf
241	.To table only	282	..Movable onto housing top or sidewall
242	MOUNTED IN WALL OR PANEL RECESS	283	ACCESSIBLE FROM PLURAL SIDES
243	SELECTIVE DIVERSE CABINET SUPPORTS	284	.Dome cover type cabinet
244	WITH CARRYING HANDLE	285	.Perimetrically
245	MOUNTED ON WALL, CEILING OR SPACED PANELS	286	.Alternately through opposite sides
246	.Movably mounted housing or compartment	287	.Opposite of four vertical sides
247	..Vertically	289	..And one additional side
248	..Pivotally only	290	.Top and vertical side
257.1	KNOCKDOWN OR SETUP TYPE	249.1	MOVABLY MOUNTED CABINET HOUSING
258	.Foldable	249.2	.Revolvable on vertical axis
259	..Flexible cardboard-type walls		
260	...Slidable closure or guides		
261	...Slidable compartment or guide		

- 249.3 ..Having closure situated at top of cabinet housing
- 249.4 ..Having sliding drawer
- 249.5 ...And exterior shelf
- 249.6 ..Having exterior shelf
- 249.7 ..Pivotal cabinet housing
- 249.8 ..Wheeled
- 249.9 ..Including roll-out assembly
- 249.11 ..Having sliding drawer
- 249.12 ...And exterior shelf
- 249.13 ..Having exterior shelf
- 291 **WITH INNER AND OUTER CLOSURES**
- 292 **WITH AUXILIARY CLOSURE IN A CLOSURE**
- 293.1 **HAVING A CLOSURE AND A DETACHABLE COMPONENT**
- 293.2 ..Pivotal closure
- 293.3 ..Removable closure
- 294 **WITH MOVABLE COMPONENTS**
- 295 ..Sequential closing, opening
- 296 ..With wiper or seal
- 297 ..Flexible material, plural strips or connected panels
- 298 ..Plural, movable relatively and as a unit
- 299 ..Continuously housed
- 300 ..Pivotal and non-rectilinear
- 301 ..Horizontally movable, non-pivoted
- 302 ...Pivoting components
- 303Transverse axis
- 304 ..Continuously housed
- 305 ..Axially pivoted (e.g., rotary)
- 306 ..Vertically movable, non-pivoted
- 307 ..Track guided for non-rectilinear motion
- 308 ..Plural, one removably supported on the other
- 309 ..Plural, diverse types
- 310 ..Sequentially movable
- 311 ...Pivoted closure, horizontally movable component
- 312 ..Non-horizontally, non-pivotally movable
- 313 ..Shelf or table pivotal to non-horizontal position
- 314 ..Support contacting supporting surface
- 315 ..Pivoted housing wall
- 316 ...Subjacently supported
- 317.1 ..Support for movable component contacts cabinet's supporting surface
- 317.2 ..Component supported independently of cabinet
- 317.3 ..Component forms horizontal planar support (e.g., table)
- 318 ..Continuously external guide
- 319.1 ..Having biasing means
- 319.2 ..For a pivotal structure
- 319.3 ...Continuously leveled
- 319.4 ..Counterbalance weight
- 319.5 ..Having power driven means
- 319.6 ..Pivotal operator
- 319.7 ..Rotary operator
- 319.8 ..Linear operator
- 319.9 ..Having foot-operated means
- 321 ..Spaced horizontal guides for article supports
- 321.5 ..Door-type closure having article support
- 322 ..Pivotal and rectilinear sequential movement
- 323 ..Horizontally and about horizontal axis
- 324 ..Plural, oppositely pivoted, parallel axes
- 325 ..Pivotal, on pivoted link
- 326 ..Pivotal, fixed axis (e.g., door)
- 327 ..Horizontal axis
- 328 ...In plane of accessible side of housing
- 329 ..In plane of accessible side of housing
- 330.1 ..Horizontally movable (e.g., drawer)
- 331 ..With equalizer
- 332 ..Transversely yieldable guides
- 332.1 ..Having handle cooperating with a latch
- 333 ..With latch, lock, or gravity closer
- 334.1 ..Having guide assembly
- 334.2 ...Lever type
- 334.3Lazy-tong
- 334.4 ...Vertically adjustable
- 334.5 ...Horizontally adjustable
- 334.6 ...At bottom corner
- 334.7 ...Between vertical sidewalls of drawer and cabinet
- 334.8Pull-out guide assembly
- 334.9Including roller and ball bearing
- 334.11Ball bearing
- 334.12Roller bearing
- 334.13Including a carriage

334.14And below a bottom wall of the drawer	351	COMPONENTS SPACED FROM BOTTOM WALL
334.15Including roller or ball bearing	223.1	FOR PARTICULAR ELECTRICAL DEVICE OR COMPONENT
334.16Having anti-friction feature	223.2	.Housing for computer or computer related equipment
334.17Ball bearing	223.3	.Work station or support furniture for computer or computer related equipment
334.18Roller bearing	223.4	.Telephone
334.19On cabinet and drawer	223.5	.Illumination means
334.21On drawer	223.6	.Particular electrical wiring feature
334.22Including plural diverse guide assemblies	351.1	HAVING PARTICULAR CABINET SUPPORT
334.23	...Suspension guide	351.2	.Single pedestal
334.24And subjacent guide	351.3	.Legs
334.25Including roller or ball bearing	351.4	..In U-shaped form
334.26Including roller or ball bearing	351.5	..Interconnected
334.27	...Subjacent guide	351.6	...Pivotally
334.28And superjacent guide	351.7	...Support base frame
334.29Including vertically separable slide and guide	351.8	...By a horizontally exterior cross member
334.31Including guide enclosed by a slide	351.9	..Pivotally connected to cabinet housing
334.32Pull-out guide assembly	351.11	.Wheel mounting feature
334.33Including roller or ball bearing	351.12	..Detachable
334.34Slide having drawer`s length	351.13	..And means to prevent moving
334.35Including slide integral with sheet metal drawer	351.14	..Attached to building structure
334.36Having anti-friction feature	352	MISCELLANEOUS
334.37Including ball and roller bearing		
334.38Ball bearing		
334.39Roller bearing		
334.41On cabinet and drawer	901	FAN-OUT HOLDERS FOR RECORDING MEDIA
334.42On drawer	902	CARRYING CASE
334.43Single roller		
334.44	...And particular stop means		
334.45Engaging roller or ball bearing		
334.46Resilient releasable stop		
334.47Pivot stop		
348.1	...Knockdown or setup type		
348.2	...Plurality of parts, held together by distinct fastening elements (e.g., bolts)		
348.3	..Compartmented		
348.4	..Facing (e.g., drawer front or face plate)		
348.5	..For holding document or pad		
348.6	..Including a particular handle		
349	WITH EXTERNAL GUIDES OR TRACKWAYS		
350	WITH INTERNAL GUIDES OR TRACKWAYS
